

SABIS Star of the Month November 2005 Allstar

The flashy chestnut gelding has always promised plenty. He has delivered on that promise in recent times.

*R*aced as an early 2YO, Allstar performed without luck though achieving black type status in his first preparation running second to Crevette in the Listed Pat Glennon Stakes.

Returning stronger as a 3YO, Allstar cracked his maiden class first up at Morphettville in a restricted 3YO race. Allstar continued his winning ways mid November at Allan Scott Park Morphettville defeating a high quality field in the 3YO Handicap also claiming the coveted SABIS Star of the Month.

Trained by Paul Seater at Murray Bridge the gelding easily accounted for his opposition cruising to a 3¹/₂ length victory over Lady With Attitude ridden a treat by jockey Scott Leckey. Owned by Susan Seater, Robert Blair & Janice Blair the then colt was passed in at the 2004 Magic Millions Adelaide Yearling Sale for

\$17,000 and has now returned \$73,410 in prize money including \$26,800 in SABIS Bonuses.

Allstar was bred by Ralph & Linda Satchell at Willow Grove Stud and is by resident stallion Centre Stalls (IRE). Allstar is just part of the growing last of Centre Stall's city winners in the last month alone. King of the Stalls, backing up after his outstanding first up win for his new stable in Western Australia, came out again and trounced his rivals. Amyjaye Power is another that has saluted in city company recently. His oldest progeny are now 4 year olds and ready to hit their straps.

A full sister to Allstar is on offer at the Malaysia Airlines Magic Millions 2006 Adelaide Yearling Sale whilst his dam Picalilli Star was served by Willow Grove's new acquisition Mugharreb (USA) recently.

SOUTH AUSTRALIAN BREEDERS INCENTIVE SCHEME

SABIS moving in the right direction

With the SABIS Breeder Nominations closed, now is a good time to analyse the foal crop data which reveals a breeding industry on the up. Not imposing increases by any means but a reflection of an industry moving in the right direction.

2003 FOAL CROP	2004 FOAL CROP
677 (Category 1 Living Foals)	701 (Category 1 Living Foals)
342 (SABIS Breeder Qualified)	367 (SABIS Breeder Qualified)
50.52% (Living Cat 1: SABIS BQ)	52.35% (Living Cat 1: SABIS BQ)

It's encouraging to see new blood in the stallion ranks thanks to those who possess the vision and proactive initiative in an industry that is moving forward. Standing their first season at stud are Face Value (Lindsay Park), Golden Lake (Mr. M Whittaker), Jetway (Grayview Stud) and Mugharreb (Willow Grove Stud). What an impact Lindsay Park Stud is having on the breeding scene. Not only are we about to see Alannan's first offerings at sale

but Lindsay Park is standing multiple Group 1 winner Barely a Moment next season. The future certainly looks bright.

A trend that presented itself through figures of the 2003 Foal Crop was the ratio of SABIS Breeder Qualified yearlings to SABIS Fully Qualified yearlings.

2003 FOAL CROP	2004 FOAL CROP
342 (Category 1 SABIS BQ)	367 (Category 1 SABIS BQ)
269 (SABIS Fully Qualified)	N/A
79% (SABIS Fully Qualified)	N/A

It's vital that the buying market at yearling sales understand SABIS and the benefits it can provide to all involved in the thoroughbred industry.

In an attempt to educate the buying public, a concentrated effort will be implemented in the form of explanatory signage and a clear and accessible representative at all Adelaide sale sessions to answer any queries in regards to SABIS.
